

LAS VEGAS DROPS OUT OF TOP THREE CITIES IN ANNUAL GAINS ACCORDING TO S&P CORELOGIC CASE-SHILLER INDEX

NEW YORK, OCTOBER 29, 2019 – S&P Dow Jones Indices today released the latest results for the S&P CoreLogic Case-Shiller Indices, the leading measure of U.S. home prices. Data released today for August 2019 shows that the rate of home price increases across the U.S. continues to slow. More than 27 years of history for these data series is available, and can be accessed in full by going to <https://www.spindices.com>.

YEAR-OVER-YEAR

The S&P CoreLogic Case-Shiller U.S. National Home Price NSA Index, covering all nine U.S. census divisions, reported a 3.2% annual gain in August, up from 3.1% in the previous month. The 10-City Composite annual increase came in at 1.5%, down from 1.6% in the previous month. The 20-City Composite posted a 2.0% year-over-year gain, no change from the previous month.

Phoenix, Charlotte, and Tampa reported the highest year-over-year gains among the 20 cities. In August, Phoenix led the way with a 6.3% year-over-year price increase, followed by Charlotte with a 4.5% increase and Tampa with a 4.3% increase. Seven of the 20 cities reported greater price increases in the year ending August 2019 versus the year ending July 2019.

The charts on the following page compare year-over-year returns of different housing price ranges (tiers) for Phoenix and Tampa.

MONTH-OVER-MONTH

Before seasonal adjustment, the National Index posted a month-over-month increase of 0.2% in August. The 10-City and 20-City Composites did not post any gains for the month. After seasonal adjustment, the National Index recorded a 0.3% month-over-month increase in August. The 10-City Composite posted a 0.1% decrease and the 20-City Composite posted a 0.2% decrease. In August, 11 of 20 cities reported increases both before seasonal adjustment while 17 of 20 cities reported increases after seasonal adjustment.

ANALYSIS

“The U.S. National Home Price NSA Index trend remained intact with a year-over-year price change of 3.2%” says Philip Murphy, Managing Director and Global Head of Index Governance at S&P Dow Jones Indices. “However, a shift in regional leadership may be underway beneath the headline national index.

“Phoenix saw an increase in its YOY price change to 6.3% and retained its leading position. However, Las Vegas dropped from number two to number eight among the cities of the 20-City Composite, falling from a 4.7% YOY change in July to only 3.3% in August. Meanwhile, the Southeast region included three of the top four cities. Charlotte, Tampa, and Atlanta all recorded solid YOY performance with price changes of 4.5%, 4.3%, and 4.0%, respectively. In the Northwest, Seattle’s YOY change turned positive (0.7%) after three consecutive months of negative YOY price changes. The 10-City Composite YOY price change declined slightly from July to 1.5%, while the 20-City Composite YOY price change remained steady at 2.0%. San Francisco was the only city to record a negative YOY price change (-0.1%).”

SUPPORTING DATA

The chart below depicts the annual returns of the U.S. National, the 10-City Composite, and the 20-City Composite Home Price Indices. The S&P CoreLogic Case-Shiller U.S. National Home Price NSA Index, which covers all nine U.S. census divisions, recorded a 3.2% annual gain in August 2019. The 10-City and 20-City Composites reported year-over-year increases of 1.5% and 2.0%, respectively.

The following chart shows the index levels for the U.S. National, 10-City and 20-City Composite Indices. As of August 2019, average home prices for the MSAs within the 10-City and 20-City Composites are back to their winter 2007 levels.

The S&P CoreLogic Case-Shiller Indices are published on the last Tuesday of each month at 9:00 am ET. They are constructed to accurately track the price path of typical single-family homes located in each metropolitan area provided. Each index combines matched price pairs for thousands of individual houses from the available universe of arms-length sales data. The S&P CoreLogic Case-Shiller U.S. National Home Price Index tracks the value of single-family housing within the United States. The index is a composite of single-family home price indices for the nine U.S. Census divisions and is calculated quarterly. The S&P CoreLogic Case-Shiller 10-City Composite Home Price Index is a value-weighted average of the 10 original metro area indices. The S&P CoreLogic Case-Shiller 20-City Composite Home Price Index is a value-weighted average of the 20 metro area indices. The indices have a base value of 100 in January 2000; thus, for example, a current index value of 150 translates to a 50% appreciation rate since January 2000 for a typical home located within the subject market.

These indices are generated and published under agreements between S&P Dow Jones Indices and CoreLogic, Inc.

The S&P CoreLogic Case-Shiller Indices are produced by CoreLogic, Inc. In addition to the S&P CoreLogic Case-Shiller Indices, CoreLogic also offers home price index sets covering thousands of zip codes, counties, metro areas, and state markets. The indices, published by S&P Dow Jones Indices, represent just a small subset of the broader data available through CoreLogic.
